

# YOANA CHURKINA

## Junior Data Analyst | Technology & Analytics Graduate

Sofia, Bulgaria | <https://www.linkedin.com/in/yoana-churkina-9408a1234/> | tel: +359897397297 | yonichurkina@gmail.com

---

## SUMMARY

Data-driven professional with a background in Information Technology and Data-Driven Design, experienced in analyzing user and business requirements, improving digital processes, and developing technology solutions. Skilled in data analysis, workflow optimization, reporting, and translating complex information into actionable insights. Experienced with SaaS environments, AI-powered prototypes, and digital platforms. Strong analytical mindset with interest in Generative AI, automation, and data-driven innovation.

---

## EXPERIENCE

### Shift Leader - Normal

2024–2026

- Managed daily operational activities and ensured accurate execution of processes.
- Monitored operational performance and supported reporting activities.
- Prioritized tasks, solved issues under pressure, and coordinated team activities.
- Supported onboarding and knowledge sharing for new employees.

### Data-Driven Designer - MediaCampusNL

2024–2025

- Applied a data-driven approach to analyze user needs, behaviors, and challenges within a digital innovation platform.
- Collected and analyzed qualitative and quantitative insights to identify improvement opportunities.
- Developed an AI-powered chatbot prototype using Groq and Retrieval-Augmented Generation (RAG) concepts.
- Designed validation workflows to evaluate AI response accuracy and improve reliability.

- Translated research findings into actionable recommendations and digital solutions.

## **UX/UI Designer Intern - Simptel**

2024

- Analyzed business requirements and translated them into structured digital workflows for a SaaS self-service platform.
- Supported the design of user management processes, authentication flows, roles, and permissions.
- Created documentation, process flows, and prototypes to improve system usability.
- Collaborated with developers and stakeholders to support product decisions.
- Developed understanding of enterprise systems, digital operations, and workflow optimization.

## **UX/UI Designer Intern - Bosch Security & Systems**

2023–2024

- Analyzed user needs and business requirements to identify opportunities for digital improvements.
  - Created prototypes and documentation using Figma.
  - Collaborated with multidisciplinary teams to translate requirements into practical solutions.
- 

# **EDUCATION**

## **Master's Degree - Data-Driven Design**

**Utrecht University of Applied Sciences**

2024–2025

Focus areas:

- Human-AI Interaction
- Data Science
- Applied Research
- Critical Thinking & Data Studies
- Ethical Design

## **Bachelor's Degree - Information Technology & Media Design**

**Fontys University of Applied Sciences**

2020–2024

---

## SKILLS

- **Data & Analytical Skills:** Data-driven design, qualitative and quantitative research analysis, user behaviour analysis, survey analysis, research insights synthesis, data-informed decision-making
  - **Technology & AI:** Generative AI concepts, RAG systems, AI prototyping, Python (basic) | SQL (basic)
  - **Digital Systems & Processes:** Requirements gathering, workflow documentation, SaaS platforms, user management processes, process optimization, digital workflow design
  - **Tools & Technology:** Microsoft Office Suite, Python (basic), SQL (basic understanding), Power BI (basic understanding), Figma, Jira, Azure DevOps, GitHub, HTML/CSS, JavaScript, React, AI prototyping (Groq, RAG concepts)
  - **Soft Skills:** Problem-solving, analytical thinking, attention to detail, adaptability, communication, collaboration, time management
-
